**Notes:**

1. In the column "Parts Per Hoist" a designator is used for parts that apply to a single speed trolley, dual speed trolley, or both. The designators are:
  - S = Single Speed
  - D = Dual Speed
  - S/D = Single Speed as well as Dual Speed
  
2. Single speed parts are good for both 40 and 80 fpm trolleys (L and S models).
